#### c. Status of Research and Development:

- 1. The development results of Research & Development department in the last three years as follows:
  - (1) Differential assembly.
  - (2) Automatic and Tiptronic transmission components.
  - (3) Torque conversion system parts.
  - (4) Planetary gear set of Continuously Variable Transmission (CVT) gearbox.
  - (5) Heavy locomotive gearbox and transmission components.
  - (6) Gearbox parts for large agricultural machinery.
  - (7) Precision mechanical reducer.
  - (8) Gear hobbing machine, optical measuring instrument, gear scraping machine, chamfering machine.
  - (9) All-Terrain vehicles (ATV) and electric scooters.
  - (10) Electric vehicle gearbox components.
  - (11) Gear rotation measuring instrument.

#### (12) Aerospace parts.

#### 2. Major topics for future Research and Development

In recent years, the Company has worked hard towards product differentiation and market segmentation, committed to the development of high value-added products, and continued to invest in the design, research and development of green energy vehicle-related components to maintain its competitive advantage in the market and stabilize customers' relationships and their orders. In response to industrial upgrade and business expansion, the Company has successively purchased high-precision machinery and inspection equipment, cultivated R&D and design talents, invested in new product research and development, introduced smart manufacturing technology, and shortened research and development time to meet customer needs.

The focus of this year's research and development is to extend the previous year's results, to develop transmission systems for various vehicles, and to develop precision gears and transmission shafts required for green energy, environmentally friendly vehicle reducers.

The scheduled research and development products are as follows:

- (1) American automobile automatic transmission components.
- (2) American automobile torque conversion system components.
- (3) New gearbox components for European high-end heavy locomotives.
- (4) Oil pump gear of American industrial machinery.
- (5) Gearbox parts of American Agricultural and Construction Machinery.
- (6) US patented Limited Slip Differential (LSD).
- (7) European series CVT components.
- (8) Air compressor components for truck brake system
- (9) Gear hobbing machine, gear scraping machine, chamfering machine.
- (10) All kinds of ATVs, electric scooters and medical assistance vehicles.
- (11) American electric vehicle gearbox components and their assembly.
- (12) Bevel gear and bevel gear differential assembly.
- (13) Planetary gear set of hybrid transmission.
- (14) Gear intelligent production integration technology.
- (15) Electric vehicle high-efficiency power transmission system assembly.
- (16) Aerospace parts.

#### d. Business Plan outline of the Year 2022:

#### 1. Management Guideline:

(1) Improve quality system and strengthen quality management:

Nowadays, major automobile manufacturers are constantly improving in terms of precision and quality requirements. Therefore, in the Quality system and management, the Company reinforces the training of quality control personnel and prosecutes the management of suppliers, to assure product quality. Reducing the occurrence of internal defect and complaints from the external customers, it shall

stabilize existing customers and establish a long-term good relationship with them.

(2) Improve technical capabilities to meet customer requirements:

Main customers of the Company have been European and American automobile factories, and first-tier system factories for a long time, especially in the parts of electric vehicles, and the precision requirements have been continuously improved. Therefore, the Company has not only upgraded and improved the equipment for production and inspection but also reinforced the training of operators on the assembly lines and of supervisors' capabilities for management to continue the excellence of technical research and development and meet the needs of customers.

(3) Actively strive for cooperation opportunities with well-known foreign car manufacturers

The Company continues to strive for more long-term cooperation opportunities with foreign automobile component manufacturers, automotive manufacturers, and emerging manufacturers of electric vehicles. With excellent quality and professional research and development technology, the Company seeks strategic alliances and technical cooperation opportunities with major transmission manufacturers, automobile manufacturers and electric vehicle manufacturers.

#### (4) Promote Productivity 4.0:

The new Dapumei factory in Chiayi County first promotes the smart manufacturing production model. In addition to purchasing automated and semi-automated machines and advanced inspection equipment, it plans to gradually implement smart automated production and inspection, which will assure quality, reduce labor costs, and improve production efficiency, furthermore optimizing its competitive edge in the industry and technical transformation.

#### 2. Production and Marketing policy

- (1) Strengthen the Company's research and development capabilities, provide customers with collaborative design services, prosecute the current IATF16949 quality certification system, improve business physique, and gradually promote toward Productivity 4.0, MES for manufacturing process and BI reports management. Meanwhile, the Company reinforces several quick response mechanisms including Total Quality Management activities (TQM), Lean Manufacturing (TPS), and Quality System Basics (QSB), and focuses on intense contact with customers to improve customer satisfaction.
- (2) Implement corporate social responsibility, demonstrate the spirit of sustainable business operations, continue to follow the ISO 14001 and ISO 45001 environmental safety and health certification systems, improve workplace environmental safety and health, and respond to environmental protection, energy conservation and carbon reduction issues, and strengthen the

- implementation of ISO 14064 greenhouse gas inventory review, ISO 14067 carbon footprint certification.
- (3) In response to the global topic of Net Zero carbon emission and the massive development trend of electric vehicles and smart driving by various automakers, with abundant experience and technology, actively strive for relevant types of customers in various regions, design and develop collaboratively with them to expand the market of reducer components for electric vehicles.
- (4) To transmission components, differentials, torque conversion systems, planetary gear sets, and other transmission components for existing automobile manufacturers, in addition to continuously improving quality and reducing costs, increasing the Company's competitiveness, and then strive existing customers' orders from different regions in the world to expand the global market.

#### 3. Future development strategy:

- (1) The development of Taiwan's automobile components is deeply influenced by the foreign automobile industry. From the perspective of the global consumer market, the Company continues to actively expand into the European, American, Chinese, and Emerging markets. However, in terms of energy conservation and carbon reduction, smart cars and electric vehicles are the focus of future vehicle development. Therefore, the Company must actively strive for major potential electric vehicle customers of related nature for collaborative development and cooperation to create new business opportunities.
- (2) Actively strive to cooperate and synchronize research and development with major international automobile manufacturers, transform for producing allaround systematic component assembly, thereby reducing the vicious competition of single-piece parts with simple manufacturing processes, to enhance profitability. It should be helpful for the Company's revenues and profits.
- (3) Continue to promote the joint research of high-tech R&D projects with industry, government, academia, and research; also local industry-academic cooperation to cultivate R&D and manufacturing talents. In addition to assisting in industrial upgrading, it can also fuel new R&D and manufacturing for the long term, and support the Company to utilize current patents to high-value-added systematic products.
- (4) In line with the government's "Our aircrafts manufactured by our own" policy, the Company has passed the AS 9100 aerospace system certification which officially obtained the entry ticket to participate in the aerospace industry. It is hoped that the Company's core technology of automotive precision

manufacturing can also be applied to the aerospace technology field, and adds new elements to the Company's product diversification.

- 4. Impacts by the external competition, the legal environment and the overall economics:
  - (1) As countries are paying close attention to the global greenhouse effect caused by automobile exhaust gas, hybrid and electric vehicle products, new automobile companies have successively entered this market, it is nothing more than to produce environment-friendly vehicles with lower prices and higher quality. Hota industrial manufacturing is a professional manufacturer of transmission parts. In addition to providing technical services closer to customer needs, the Company enhances its competitiveness in the global energy-saving vehicle market and contributes to the automotive industry and the Net Zero carbon emission.
  - (2) Due to the events in the recent two years including overall issue with regards to worldwide deficiency of orders, materials, sea-freight containers, labor, etc. as a result of impacts by Novel Coronavirus Pneumonia (COVID-19) as well as the influences on the global economy and inflation in exchange rate resulting from the war, the Company shall take grasps on the rapid changes of customers and markets. For the global auto parts, related industries intelligence, and domestic and foreign laws and regulations must be continuously collected to cope with various operational risks in the future.

In the end, I would like to express my sincere gratitude to all shareholders for their long-term support and encouragement. Wish all shareholders healthy and everything as your heart wishes.

Independent Auditor's Report
(111) Ministry of Finance approved No.21004946

The Board of Directors and Shareholders Hota Industrial Manufacturing Company Limited **Opinion** 

We have audited the accompanying consolidated states of Hota Industrial Manufacturing Company Limited and its subsidiaries (the "Group"), which comprise the consolidated balance sheets as of December 31,2021 and 2020, and the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, according to our audit result and audit reports from other accountants(please refer to "Others" section), the consolidated financial position of the Group as of December 31,2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by the Securities Issuers and the International Reporting Standards(IRFS), International Accounting Standards(IAS), IFRIC Interpretations(IFRIC), and SIC Interpretations (SIC) endorsed and issues into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statement section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters December 31, 2021 and 2020,

Key audit matters are those materials that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2021. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the Group's consolidated financial statements for the year ended December 31, 2021 are stated as follows:

#### **Cut-off date for international export income**

#### Notes

With regard to the accounting policy on income recognition, please refer to Note 4 (29) of the consolidated financial report.

The Group mainly focused on the manufacturing and trading of related products for vehicle transmission parts. The main source of sales income is international export sales. Sales to customers involve different types of trading conditions. However, the Group recognize the sales revenue immediately after shipment. At the end of each period, ownership of the products that has not been transferred to the buyer due to the failure of the agreed trading conditions and the control of the product has not been transferred to the buyer. Because the data collection that does not meet the sales revenue recognition conditions involves a high degree of manual judgment and operation, the accountant has included the cut-off date of the export sales revenue as a significant review item.

#### Corresponding verification procedures

The accountants respond to above notes and take procedures for the specific aspects and procedures are summarized as follows:

- 1. Understand and evaluate the operating procedures and internal controls of the Company sales transactions, and test the controls.
- 2. Perform a cut-off test for sales transactions within a certain period before and after the end of the financial report, and confirm that revenue is recognized in the appropriate period.

### **Inventory allowance falling price and sluggish loss evaluation** Notes

With regard to inventory accounting policies, please refer to Note 4 (14) of the consolidated financial report. For important accounting estimates and assumptions for inventory evaluation, please refer to Note 5 (2) of the consolidated financial report. Please refer to Note 6 (6) of the consolidated financial report for the description of the inventory allowance loss. The Group's inventory and inventory allowance losses as of December 31, 2021 were NT\$3,161,905 thousand and NT\$105,119 thousand, respectively.

The Group is mainly engaged in the manufacturing and trading of automotive transmission parts related products. Due to the fierce competition in the automotive transmission parts market, there is a high risk of inventory falling-price loss or outdated price loss. The inventories of the Group are measured by cost and net realizable value. For inventories that are older than a certain period of age and those that are respectively identified as obsolete, provision is made for depreciation losses based on the degree of inventory depletion. The net realizable value used to evaluate obsoleteness often involves subjective judgments and therefore a high degree of uncertainty in estimation exists. Considering the Group's inventory and its allowance for depreciation losses have a significant impact on the financial statements. The accountant believes that the Group's inventory depreciation loss evaluation is one of the most important items in this year's audit.

#### Corresponding verification procedures

The accountants respond to above notes and take procedures for the specific aspects and procedures are summarized as follows:

- 1. Understand and evaluate the inventory allowance for depreciation losses, the operating procedures and internal controls mentioned. And then test the controls.
- 2. Review the annual inventory-check plan and participate in the annual inventory check to evaluate the management's control of outdated inventory.
- 3. The policy for the provision of allowances for inventory evaluation losses is consistently adopted and the rationality of the provision policy is evaluated during the period of comparing the financial statements.
- 4. Obtain the inventory age reports to check the inventory items to test the accuracy of the inventory age calculation logic and information.
- 5. Regarding the estimated net realizable value of the inventory items, discuss with the management and obtain supporting documents, and then evaluate the rationality of the inventory allowance evaluation loss.

#### Other matters-adopting other accountant's audit reports

The Group's consolidated financial statements adopt equity method for investee companies whose financial statements have not been checked by this accountant, but by other accountants. Therefore, in the opinions expressed by this accountant on the above consolidated financial statements, the amounts listed in the financial statements of these companies are based on the audit reports of other accountants. The amount of investment using the equity method on December 31, 2021 and December 31, 2020 were NT\$314,127 thousand and 319,885 thousand, respectively, accounting for 1.49% and 1.74% of the total assets respectively. From January 1st to December 31st 2021 and from January 1st to December 31st 2020, the comprehensive profits recognized by the equity method were NT\$19,378 thousand in losses and NT\$2,398 thousand in losses, respectively, each accounting for 5.93% and 0.78% of comprehensive profit and loss.

#### Other matters - individual financial reports

Hota Industrial Manufacturing Company Limited has prepared its financial statements for the years ended December 31, 2021 and 2020, and we have issued an unqualified audit report thereon for your information.

### Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IRFS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China ,and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparation the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing. When applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the audit Committee) are responsible for overseeing the Group's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our Objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists, Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, the could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to the events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance departments, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements and communicated with them all relationships and other matters that may reasonably be thought to bear our independence and related safeguards when applicable.

From the matters communicated with those charged with governance, we determine those matters that were of significance in the audit of the consolidated financial statements for the year ended December 31,2021 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Independent Auditor's Report

(111) Ministry of Finance approved No. 21004711(111) Ministry of Finance approved No. 21004711(111) Ministry of Finance approved No. 21004711(111) Ministry of Finance approved No. 21004711

The Board of Directors and Shareholders Hota Industrial Manufacturing Company Limited Public

#### **Opinion**

We have audited the accompanying Individual states of Hota Industrial Manufacturing Company Limited (the "Company"), which comprise the individual balance sheets as of December 31,2021 and 2020, and the individual statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the individual financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying individual financial statements present fairly, according to our audit result and audit reports from other accountants(please refer to "Others" section), the individual financial position of the Company as of December 31,2021 and 2020, and its individual financial performance and its individual cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by the Securities Issuers and the International Reporting Standards(IRFS), International Accounting Standards(IAS), IFRIC Interpretations(IFRIC), and SIC Interpretations (SIC) endorsed and issues into effect by the Financial Supervisory Commission of the Republic of China.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Individual Financial Statement section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key Audit Matters December 31, 2021 and 2020,

Key audit matters are those materials that, in our professional judgment, were of most significance in our audit of the individual financial statements for the year ended December 31,2021. These matters were addressed in the context of our audit of the Individual financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the company's individual financial statements for the year ended December 31,2021 are stated as follows:

#### **Cut-off date for international export income**

#### Notes

With regard to the accounting policy on income recognition, please refer to Note 4 (28) of the individual financial report.

The Company mainly focused on the manufacturing and trading of related products for vehicle transmission parts. The main source of sales income is international export sales. Sales to customers involve different types of trading conditions. However, the Company recognize the sales revenue immediately after shipment. At the end of each period, ownership of the products that has not been transferred to the buyer due to the failure of the agreed trading conditions and the control of the product has not been transferred to the buyer. Because the data collection that does not meet the sales revenue recognition conditions involves a high degree of manual judgment and operation, the accountant has included the cut-off date of the export sales revenue as a significant review item.

#### Corresponding verification procedures

The accountants respond to above notes and take procedures for the specific aspects and procedures are summarized as follows:

- 1. Understand and evaluate the operating procedures and internal controls of the Company sales transactions, and test the controls.
- 2. Perform a cut-off test for sales transactions within a certain period before and after the end of the financial report, and confirm that revenue is recognized in the appropriate period.

#### Inventory allowance falling price and sluggish loss evaluation

#### Notes

With regard to inventory accounting policies, please refer to Note 4 (13) of the individual financial report. For important accounting estimates and assumptions for inventory evaluation, please refer to Note 5 (2) of the individual financial report. Please refer to Note 6 (6) of the individual financial report for the description of the inventory allowance loss. The Company's inventory and inventory allowance losses as of December 31, 2021 were NT\$2,767,618 thousand and NT\$85,702 thousand, respectively.

The Company is mainly engaged in the manufacturing and trading of automotive transmission parts related products. Due to the fierce competition in the automotive transmission parts market, there is a high risk of inventory falling-price loss or outdated price loss. The inventories of the Company are measured by cost and net realizable value. For inventories that are older than a certain period of age and those that are respectively identified as obsolete, provision is made for depreciation losses based on the degree of inventory depletion. The net realizable value used to evaluate obsoleteness often involves subjective judgments and therefore a high degree of uncertainty in estimation exists. Considering the Company's inventory and its allowance for depreciation losses have a significant impact on the financial statements. The accountant believes that the Company's inventory depreciation loss evaluation is one of the most important items in this year's audit.

#### Corresponding verification procedures

The accountants respond to above notes and take procedures for the specific aspects and procedures are summarized as follows:

- 1. Understand and evaluate the inventory allowance for depreciation losses, the operating procedures and internal controls mentioned. And then test the controls.
- 2. Review the annual inventory-check plan and participate in the annual inventory check to evaluate the management's control of outdated inventory.
- 3. The policy for the provision of allowances for inventory evaluation losses is consistently adopted and the rationality of the provision policy is evaluated during the period of comparing the financial statements.
- 4. Obtain the inventory age reports to check the inventory items to test the accuracy of the inventory age calculation logic and information.
- 5. Regarding the estimated net realizable value of the inventory items, discuss with the management and obtain supporting documents, and then evaluate the rationality of the inventory allowance evaluation loss.

#### Other matters-adopting other accountant's audit reports

The company's individual financial statements adopt equity method for investee companies whose financial statements have not been checked by this accountant, but by other accountants. Therefore, in the opinions expressed by this accountant on the above individual financial statements, the amounts listed in the financial statements of these companies are based on the audit reports of other accountants. The amount of investment using the equity method on December 31, 2021 and December 31, 2020 were NT\$59,394 thousand and 45,707 thousand, respectively, accounting for 0.30% and 0.27% of the total assets respectively. From January 1st to December 31st 2021 and from January 1st to December 31st 2020, the comprehensive profits recognized by the equity method were NT\$2,843 thousand in benefits and NT\$258 thousand in losses, respectively, each accounting for 0.87% and 0.08% of comprehensive profit and loss.

### Responsibilities of Management and Those Charged with Governance for the Individual Financial Statements

Management is responsible for the preparation and fair presentation of the individual financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the IRFS, IAS, IFRIC, and SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China ,and for such internal control as management determines is necessary to enable the

preparation of individual financial statements that are free from material misstatement, whether due to fraud or error.

In preparation the Individual financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the audit Committee) are responsible for overseeing the Company's financial reporting process.

#### Auditors' Responsibilities for the Audit of the Individual Financial Statements

Our Objectives are to obtain reasonable assurance about whether the individual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists, Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Individual financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- 1. Identify and assess the risks of material misstatement of the individual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to the events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Individual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the individual financial statements, including the disclosures, and whether the Individual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the Individual financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance departments, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during the audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements and communicated with them all relationships and other matters that may reasonably be thought to bear our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of significance in the audit of the individual financial statements for the year ended December 31,2021 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

<sup>1.</sup> The Company's earnings distribution policy adopts the priority to allocate the earnings of the year 2021, if insufficient shall be compensated by the surplus of previous years on the first-in-first-out principle.

Chairman of the Board: General Manager: Accounting Supervisor SHEN, GUO-RONG CHEN, JUN-ZHI CHEN, CHANG-YUAN

<sup>2.</sup> The ex-right/ex-dividend rate is calculated based on the total number of shares issued and outstanding 279,517,513 shares; the actual allotment amount per thousand shares is calculated based on the actual number of shares issued and outstanding on the ex-rights/ex-dividend base date. In the case of this earnings distribution proposal, if the number of distributable shares of the Company's common shares has changed [reason for the change: It is the number of converted shares of convertible corporate bonds, or convertible special shares, or employee stock option], the shareholders' ex-right / ex-dividend ratio changes and need modification, shareholders' meeting is proposed to authorize the board of directors to deal with it.

Article 2-1: Due to business needs, the Company may handle endorsement and guarantee matters in accordance with the Company's Operating procedures for endorsement and guarantee.

Article 3: The Company is headquartered in Taichung City, Taiwan, and when necessary may establish branches or subsidiaries at home and abroad according to resolutions by the board of directors.

#### Chapter 2 Shares

Article 4: Total capital amount for the Company is set at NT\$ 3,500 million dollars which are divided into 350 million shares, with NT\$ 10 dollars per share. The

board of directors' meeting is hereby authorized to issue these shares in separate batches. The shares issued by the Company may be exempted from printing stocks, and shall be registered with the securities centralized custodial institution, and special shares may be issued within the aforementioned total amount of shares.

Article 4-1:

With shareholders representing more than half of total shares issued attending shareholder's meeting as well as consent by more than two thirds of voting rights from attending shareholders, the Company may therefore assign shares to employees at prices lower than the actual average price of shares buy back. The Company may issue special shares less or equal than 150 million shares. The rights and obligations of the Company's special shares and other important issuance conditions are as follows:

Article 4-2:

- 1. If there is a surplus in the Company's annual financial statements, the earning shall by sequence pay taxes, make up for previous losses, withdraw 10% legal reserve, add undistributed earning as the cumulative undistributed earnings. After adjustment of withdrawing or reversing by laws and regulations, and deduct proper earning for reservation, if there is still a balance, the special shares may be given priority to distribute the dividends for the current year.
- 2. Special dividends are capped at an annual rate of 8%.
- 3. Special share dividends are calculated based on the actual issuance price. After the annual shareholders meeting recognizes the final financial statements, the board of directors sets the special dividend ex-dividend baseline date, and pays the special dividends of the previous year in cash. Special share dividends of the Year of issuance are calculated by actual number of issuance days in a year, and the base day of capital raising is set as the issuance date.
- 4. If the Company has no surplus or insufficient surplus in the Company's annual final accounts for special share dividends distribution, the undistributed or under-distributed dividends will be accumulated and deferred in future years with surplus.
- 5. The dividend baseline date, issuance and conversion method and other related matters of the special shares are authorized to the board of directors to determine in accordance with the Company Act and the regulations of the securities authority.
- 6. After three years from the delivery date of the special shares, the Company can redeem 50% of the special shares at a lump sum in cash at the issue price.
- 7. The issuance period of the special share is five years. The Company compulsory converts the outstanding special shares

- into common shares on the expiry date. After the special shares are converted into common shares in accordance with this provision, the Company will accumulate unpaid dividends, except as otherwise followed by the laws and regulations, and compensate in cash.
- If the special shares have been converted into common shares 8. before the ex-right (ex-dividend) base date, the common shares participate in the conversion of the current year's shareholders' meeting resolutions related to the previous year's earnings and capital distribution but waive special dividends for the previous year. If the special shares are converted into common shares after the ex-right (ex-dividend) base date, they shall participate in the conversion of the current year's shareholders' meeting resolutions to distribute the special dividends of the previous year, and no longer participate in the conversion of common shares related to the previous year's earnings and capital reserve distribution. In the year of conversion, the special dividends of the current year are not allowed, but they can participate in the distribution of earning and the capital reserve of common shares for the current year. Special dividends and ordinary dividends (interests) in the same year are based on the principle of non-repetitive distribution.
- 9. The special shares shall not participate in the distribution of earnings and capital reserve of common shares except for receiving special dividends.
- 10. The distribution of the Company's residual assets by the special shares takes precedence over the common shares, but it does not exceed the amount of the special shares issued.
- 11. Special shares shareholders have no voting rights and electing rights in the common shares shareholders' meeting, but they may be elected as directors.
- 12. When the Company issues new shares in cash, special shares, and common shares shareholders have the same preferred stock options.
- Article 5: The total number of reinvestments of the Company is not subject to the restriction of Article 13 of the Company Act that the reinvestment shall not exceed 40% of the paid-in capital.
- Article 6: The Company's share affairs are handled in accordance with the "Regulations Governing the Administration of Shareholder Services of Public Companies" issued by the competent authority.
- Article 7: The entries in the shareholders' register shall not be altered within 30 days

prior to the convening date of a regular shareholders' meeting, or within 15 days prior to the convening date of a special shareholders' meeting, or within 5 days prior to the target date fixed by the issuing company for distribution of dividends, bonus or other benefits.

#### **Chapter 3** Shareholders' meeting

Article 8: The Company's shareholders' meeting has two types:

- 1. The regular shareholders' meeting shall be held within six months after the end of each fiscal year.
- 2. The extraordinary shareholders' meeting shall be convened in accordance with relevant laws and regulations when necessary.

Article 9: When a shareholder is unable to attend the shareholders' meeting for some

reason, in accordance with Article 177 of the Company Act, the shareholder

may issue a proxy letter and entrust a representative to attend the meeting.

Article 10: The meeting shall be chaired by the chairperson of the board. When the

The meeting shall be chaired by the chairperson of the board. When the chairperson of the board is on leave, the vice chairperson shall act in place of the chairperson; if the vice chairperson also is on leave, the chairperson shall appoint one of the managing directors to act as chair; if the chairperson does

not make such a designation, the directors shall select from among

themselves one person to serve as chair.

Article 11: Resolutions at a shareholders' meeting shall, unless otherwise provided for in

this Act, be adopted by a majority vote of the shareholders present, who represent more than one-half of the total number of voting shares. At the time of voting, if there is no objection after consultation by the chairman of the shareholders present, it shall be deemed as passed, and its effect shall be the

same as the voting.

Article 11-1: When the Company holds a shareholder meeting, it shall adopt exercise of

voting rights by electronic means and by writing. A shareholder exercising voting rights by writing or electronic means will be deemed to have attended the meeting in person, but to have waived his/her rights with respect to the

extraordinary motions and amendments to original proposals of that meeting

in according to Article 177-2 of the Company Act.

Article 12: Resolutions adopted at a shareholders' meeting shall be recorded in the

minutes of the meeting, which shall be affixed with the signature or seal of the chairman of the meeting and shall be distributed to all shareholders of the Company within twenty (20) days after the close of the meeting. The minutes of shareholders' meeting shall record the date and place of the meeting, the

name of the chairman, the method of adopting resolutions, and a summary of the essential points of the proceedings and the results of the meeting. The

attendance list bearing the signatures of shareholders present at the meeting

and the proxies shall be kept by the Company for check. The dissemination of

#### **Chapter 4** Directors

Article 13:

The board of directors of the Company have 9 to 13 directors who shall be elected by the shareholders' meeting from among the persons with disposing capacity. The term of office of a director is three years and he/she may be eligible for re-election. The total number of shares held by all directors shall not be less than a certain percentage of the total issued shares of the Company, and the percentage shall be in accordance with the regulations of the competent authority. The Company shall appoint independent directors within the number of directors. They shall be not less than three in number and not less than one-fifth of the total number of directors.

Article 13-1:

The election and appointment of the Company's directors (including independent directors) are in accordance with the nomination system stipulated in Article 192 of the Company Act. The shareholders' meeting shall elect directors from the list of director candidates. The matters that independent directors should follow shall be handled in accordance with the Company Act, the Securities Exchange Act, and the regulations of the securities authorities.

Article 13-2:

For the purpose of developing supervisory functions and strengthening management mechanisms, the board of directors may set up functional committees in which the numbers of members, terms of office, and powers of committee members, as well as the related rules shall be defined by the board of directors and complied with related laws and regulations.

The Company shall establish an audit committee to replace supervisors. The audit committee shall be composed of the entire number of independent directors, not be fewer than three persons in number, one of whom shall be convener, and set forth in accordance with the Company Act, the Securities Exchange Act, and other rules and regulations for supervisors.

Article 13-3:

The remuneration and the traffic expenses of the directors of the Company shall be evaluated by the Salary and Compensation Committee on the value of their participation in and contribution to the operation of the Company. The Board of Directors shall be authorized to make decisions based on the evaluation of the Salary and Compensation Committee and with reference to domestic and foreign industry standards. To enhance corporate management, the Company shall take out directors and important members' liability insurance with respect to liabilities resulting from exercising their duties during their terms of occupancy so as to reduce and spread the risk to the Company and shareholders arising from their wrongdoings or negligence. The insured amount of the liability insurance taken out shall authorize the board of directors to deal with.

Article 14:

When the number of directors falls short by one-third of the total number of directors, or the discharge of all independent directors, the Company shall convene a shareholders meeting within 60 days of the occurrence of that fact for a by-election for director(s).

Article 15:

When a director's term of office expires and is not in time for re-election, his executive duties shall be extended until the re-elected director takes office.

Article 16:

The board of directors shall elect a Chairman and a Vice Chairman from among the directors by a majority vote at a meeting attended by over two-thirds of the directors. The Chairman shall externally represent the Company.

Article 17:

Meetings of the board of directors shall be convened by the chairman, except for other regulations of the Company Act. In calling a meeting of the board of directors, a notice shall be given to each director, by means of documents, electronic mails, or facsimile, no later than seven (7) days prior to the scheduled meeting date. In the case of an emergency, a meeting of the board of directors may be convened at any time. Unless otherwise provided for the Company Act, resolutions of the Board of Directors shall be adopted by a majority of the directors at a meeting attended by a majority of the directors. If a director could not attend the meeting, he/she shall issue a written proxy and state therein the scope of authority with reference to the subjects to be discussed at the meeting. A director may accept the appointment to act as the proxy of one other director only.

Article 18:

In case the chairman of the board of directors can not exercise his duty, the vice-chairman shall act on his behalf. In case the vice-chairman is also unable to exercise his duty, the Chairman of the board of directors shall designate one of the directors to act on his behalf, or where there is no director designated, one of the directors recommended among directors to act on his behalf.

Article 19:

The duties of the board of directors are as follows:

- 1. The formulation of the Company's operating policy.
- 2. Review of mid-term and long-term development plans.
- 3. Review and implementation of the annual business plan.
- 4. Review of budget and final accounts.
- 5. Review of the plan for capital increase or decrease.
- 6. Review of important external contracts.
- 7. Deliberation on the amendments to the Articles of Incorporation of the Company.
- 8. Approval of the Company organization charter rules, working rules, and important business operation procedures.
- 9. The establishment, alteration, or cancellation of subsidiary or branch office.
- 10. Approval of major capital expenditures.

- 11. Recruitment and dismissal of managers.
- 12. Ratification for review items submitted by the General Manager.
- 13. Other matters prescribed by law.

Article 20:

Resolutions adopted at a meeting of the Board of Directors shall be recorded in the minutes of the meeting, which shall be affixed with the signature or seal of the chairman of the meeting and shall be distributed to all directors of the Company within twenty (20) days after the close of the meeting. The attendance list bearing the signatures of directors present at the meeting and the proxies shall be kept by the Company.

Article 21: Deleted.
Article 22: Deleted.

#### **Chapter 5** Managers and Employees

Article 23: The Company may appoint a manager (including the General Manager)

whose appointment, dismissal, and remuneration shall be made by the Board of Directors with a majority of the directors present and a resolution approved by a majority of the directors present. The manager should have a domicile or

residence domestically.

Article 24: The Company may hire consultants and important staff upon the resolutions

by the Board of Directors with a majority of the directors present and a

resolution approved by a majority of the directors present.

Article 25: Other employees of the Company shall be submitted by the General Manager

to the Chairman of the board for approval.

#### Chapter 6 Accounting

Article 26:

According to Article 228 of the Company Act, at the close of each fiscal year, the Board of Directors shall prepare the following statements and records and shall forward the same to the Audit Committee for their review, not later than the 30th day before the meeting date of a Regular shareholders' meeting:

- 1. The business report;
- 2. The financial statements; and
- 3. The surplus earning distribution or deficit off-setting proposals.

Article 27:

If the Company makes annual profits, it shall allocate no less than 2% for employee remuneration and no more than 5% for directors' remuneration, the board of directors shall decide to distribute in stocks or in cash, and the distribution targets for employee remuneration include employees of affiliated companies who meet certain conditions. However, when the Company still has accumulated losses, it shall reserve the number of earnings in advance, and then allocate employee remuneration and director remuneration in proportion to the preceding paragraph.

Article 27-1:

If there is a surplus in the Company's annual financial statements, the earning shall by sequence pay taxes, make up for previous losses, withdraw 10% legal reserve, except the legal reserve has reached the paid-in capital. After the special reserve is withdrawn or reversed in accordance with the law, the "dividend of special shares should be distributed in priority in the current year, and the accumulated undistributed dividends in previous years". If there is still a surplus, the balance will be added to the undistributed retained earnings of the previous year for the Board of Directors to draft an Earning Distribution proposal and submit it to the shareholders meeting for resolution.

#### **Chapter 7 Supplementary Provisions**

Article 28:

The Company's dividend policy shall proceed in the following: the Company considers the capital needs of the industry, improves the financial structure, as well as the business growth. The Company's Board of Directors considers the profitability and the business requirements, and proposes an earnings distribution plan, and submits it to shareholders' meeting for ratification. In the earning distribution plan proposed by the board of directors, the total amount of shareholders' dividends should be between 30% and 80% of the current year's distributable retained earnings, and the dividend paid in cash should not be less than 20% of the total amount of shareholders' dividends. Matters not stipulated in this Articles of Incorporation shall be handled in compliance with the Company Act and other laws and regulations.

#### (Appendix 5) Rules of Procedure for Shareholders' Meetings

### Hota Industrial MFG. Co., Ltd. Rules of Procedure for Shareholders' Meetings

Amended on July 20, 2021

- 1. To establish a strong governance system and sound supervisory capabilities for the Company's shareholders meetings, and to strengthen management capabilities, these Rules are adopted pursuant to Article 5 of the Corporate Governance Best-Practice Principles for TWSE/GTSM Listed Companies. The rules of procedures for the Company's shareholders meetings, except as otherwise provided by law, regulation, or the articles of incorporation, shall be as provided in these Rules.
- 2. Unless otherwise provided by law or regulation, the Company's shareholders meetings shall be convened by the board of directors.

The Company shall prepare electronic versions of the shareholders meeting notice and proxy forms, and the origins of and explanatory materials relating to all proposals, including proposals for ratification, matters for deliberation, or the election or dismissal of directors or supervisors, and upload them to the Market Observation Post System (MOPS) before 30 days before the date of a regular shareholders meeting or before 15 days before the date of a special shareholders meeting. The Company shall prepare electronic versions of the shareholders meeting agenda and supplemental meeting materials and upload them to the MOPS before 21 days before the date of the regular shareholders meeting or before 15 days before the date of the shareholders meeting, the Company shall also have prepared the shareholders meeting agenda and supplemental meeting materials and made them available for review by shareholders at any time. The meeting agenda and supplemental materials shall also be displayed at the Company and the professional shareholder services agent designated thereby as well as being distributed on-site at the meeting place.

The reasons for convening a shareholders meeting shall be specified in the meeting notice and public announcement. With the consent of the addressee, the meeting notice may be given in electronic form.

Election or dismissal of directors or supervisors, amendments to the articles of incorporation, reduction of capital, application for the approval of ceasing its status as a public company, approval of competing with the company by directors, surplus profit distributed in the form of new shares, reserve distributed in the form of new shares, the dissolution, merger, or demerger of the corporation, or any matter under Article 185, paragraph 1 of the Company Act, Articles 26-1 and 43-6 of the Securities Exchange Act, Articles 56-1 and 60-2 of the Regulations Governing the Offering and Issuance of Securities by Securities Issuers shall be set out and the essential contents explained in the notice of the reasons for convening the shareholders meeting. None of the above matters may be raised by an extraordinary motion.

Where re-election of all directors and supervisors as well as their inauguration date is stated in the notice of the reasons for convening the shareholders meeting, after the completion of the re-election in said meeting such inauguration date may not be altered by any extraordinary motion or otherwise in the same meeting.

A shareholder holding one percent or more of the total number of issued shares may submit to the Company a proposal for discussion at a regular shareholders meeting. The number of items so proposed is limited to one only, and no proposal containing more than one item will be included in the meeting agenda. When the circumstances of any subparagraph of Article 172-1, paragraph 4 of the Company Act apply to a proposal put forward by a shareholder, the board of directors may exclude it from the agenda. A shareholder may propose a recommendation for urging the corporation to promote public interests or fulfill its social responsibilities, provided procedurally the number of items so proposed is limited only to one in accordance with Article

172-1 of the Company Act, and no proposal containing more than one item will be included in the meeting agenda.

Prior to the book closure date before a regular shareholders meeting is held, the Company shall publicly announce its acceptance of shareholder proposals in writing or electronically, and the location and time period for their submission; the period for submission of shareholder proposals may not be less than 10 days.

Shareholder-submitted proposals are limited to 300 words, and no proposal containing more than 300 words will be included in the meeting agenda. The shareholder making the proposal shall be present in person or by proxy at the regular shareholders meeting and take part in discussion of the proposal.

Prior to the date for issuance of notice of a shareholders meeting, the Company shall inform the shareholders who submitted proposals of the proposal screening results, and shall list in the meeting notice the proposals that conform to the provisions of this article. At the shareholders meeting the board of directors shall explain the reasons for exclusion of any shareholder proposals not included in the agenda.

3. For each shareholders meeting, a shareholder may appoint a proxy to attend the meeting by providing the proxy form issued by the Company and stating the scope of the proxy's authorization.

A shareholder may issue only one proxy form and appoint only one proxy for any given shareholders meeting, and shall deliver the proxy form to the Company before five days before the date of the shareholders meeting. When duplicate proxy forms are delivered, the one received earliest shall prevail unless a declaration is made to cancel the previous proxy appointment.

After a proxy form has been delivered to the Company, if the shareholder intends to attend the meeting in person or to exercise voting rights by correspondence or electronically, a written notice of proxy cancellation shall be submitted to the Company before two business days before the meeting date. If the cancellation notice is submitted after that time, votes cast at the meeting by the proxy shall prevail.

- 4. The venue for a shareholders meeting shall be the premises of the Company, or a place easily accessible to shareholders and suitable for a shareholders meeting. The meeting may begin no earlier than 9 a.m. and no later than 3 p.m. Full consideration shall be given to the opinions of the independent directors with respect to the place and time of the meeting.
- 5. The Company shall specify in its shareholders meeting notices the time during which shareholder attendance registrations will be accepted, the place to register for attendance, and other matters for attention.

The time during which shareholder attendance registrations will be accepted, as stated in the preceding paragraph, shall be at least 30 minutes prior to the time the meeting commences. The place at which attendance registrations are accepted shall be clearly marked and a sufficient number of suitable personnel assigned to handle the registrations.

Shareholders and their proxies (collectively, "shareholders") shall attend shareholders meetings based on attendance cards, sign-in cards, or other certificates of attendance. The Company may not arbitrarily add requirements for other documents beyond those showing eligibility to attend presented by shareholders. Solicitors soliciting proxy forms shall also bring identification documents for verification.

The Company shall furnish the attending shareholders with an attendance book to sign, or attending shareholders may hand in a sign-in card in lieu of signing in.

The Company shall furnish attending shareholders with the meeting agenda book, annual report, attendance card, speaker's slips, voting slips, and other meeting materials. Where there is an election of directors or supervisors, pre-printed ballots shall also be furnished.

When the government or a juristic person is a shareholder, it may be represented by more than one representative at a shareholders meeting.

6. If a shareholders meeting is convened by the board of directors, the meeting shall be chaired by the chairperson of the board. When the chairperson of the board is on leave or for any reason unable to exercise the powers of the chairperson, the vice chairperson shall act in place of the chairperson; if there is no vice chairperson or the vice chairperson also is on leave or for any

reason unable to exercise the powers of the vice chairperson, the chairperson shall appoint one of the managing directors to act as chair, or, if there are no managing directors, one of the directors shall be appointed to act as chair. Where the chairperson does not make such a designation, the managing directors or the directors shall select from among themselves one person to serve as chair.

When a managing director or a director serves as chair, as referred to in the preceding paragraph, the managing director or director shall be one who has held that position for six months or more and who understands the financial and business conditions of the company. The same shall be true for a representative of a juristic person director that serves as chair.

It is advisable that shareholders meetings convened by the board of directors be chaired by the chairperson of the board in person and attended by a majority of the directors, at least one supervisor in person, and at least one member of each functional committee on behalf of the committee. The attendance shall be recorded in the meeting minutes.

If a shareholders meeting is convened by a party with power to convene but other than the board of directors, the convening party shall chair the meeting. When there are two or more such convening parties, they shall mutually select a chair from among themselves.

The Company may appoint its attorneys, certified public accountants, or related persons retained by it to attend a shareholders meeting in a non-voting capacity.

- 7. The Company, beginning from the time it accepts shareholder attendance registrations, shall make an uninterrupted audio and video recording of the registration procedure, the proceedings of the shareholders meeting, and the voting and vote counting procedures.
  - The recorded materials of the preceding paragraph shall be retained for at least one year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the recording shall be retained until the conclusion of the litigation.
- 8. Attendance at shareholders meetings shall be calculated based on number of shares. The number of shares in attendance shall be calculated according to the shares indicated by the attendance book and sign-in cards handed in plus the number of shares whose voting rights are exercised by correspondence or electronically.

The chair shall call the meeting to order at the appointed meeting time and disclose information concerning the number of nonvoting shares and number of shares represented by shareholders attending the meeting.

However, when the attending shareholders do not represent a majority of the total number of issued shares, the chair may announce a postponement, provided that no more than two such postponements, for a combined total of no more than one hour, may be made. If the quorum is not met after two postponements and the attending shareholders still represent less than one third of the total number of issued shares, the chair shall declare the meeting adjourned.

If the quorum is not met after two postponements as referred to in the preceding paragraph, but the attending shareholders represent one third or more of the total number of issued shares, a tentative resolution may be adopted pursuant to Article 175, paragraph 1 of the Company Act; all shareholders shall be notified of the tentative resolution and another shareholders meeting shall be convened within one month.

When, prior to conclusion of the meeting, the attending shareholders represent a majority of the total number of issued shares, the chair may resubmit the tentative resolution for a vote by the shareholders meeting pursuant to Article 174 of the Company Act.

9. If a shareholders meeting is convened by the board of directors, the meeting agenda shall be set by the board of directors. Votes shall be cast on each separate proposal in the agenda (including extraordinary motions and amendments to the original proposals set out in the agenda). The meeting shall proceed in the order set by the agenda, which may not be changed without a resolution of the shareholders meeting.

The provisions of the preceding paragraph apply mutatis mutandis to a shareholders meeting convened by a party with the power to convene that is not the board of directors.

The chair may not declare the meeting adjourned prior to completion of deliberation on the meeting agenda of the preceding two paragraphs (including extraordinary motions), except by a resolution of the shareholders meeting. If the chair declares the meeting adjourned in violation of the rules of procedure, the other members of the board of directors shall promptly assist the

attending shareholders in electing a new chair in accordance with statutory procedures, by agreement of a majority of the votes represented by the attending shareholders, and then continue the meeting.

The chair shall allow ample opportunity during the meeting for explanation and discussion of proposals and of amendments or extraordinary motions put forward by the shareholders; when the chair is of the opinion that a proposal has been discussed sufficiently to put it to a vote, the chair may announce the discussion closed, call for a vote, and schedule sufficient time for voting.

10. Before speaking, an attending shareholder must specify on a speaker's slip the subject of the speech, his/her shareholder account number (or attendance card number), and account name. The order in which shareholders speak will be set by the chair.

A shareholder in attendance who has submitted a speaker's slip but does not actually speak shall be deemed to have not spoken. When the content of the speech does not correspond to the subject given on the speaker's slip, the spoken content shall prevail.

When an attending shareholder is speaking, other shareholders may not speak or interrupt unless they have sought and obtained the consent of the chair and the shareholder that has the floor; the chair shall stop any violation.

After an attending shareholder has spoken, the chair may respond in person or direct relevant personnel to respond.

- 11. Except with the consent of the chair, a shareholder may not speak more than twice on the same proposal, and a single speech may not exceed 5 minutes. If the shareholder's speech violates the rules or exceeds the scope of the agenda item, the chair may terminate the speech.
- 12. When a juristic person shareholder appoints two or more representatives to attend a shareholders meeting, only one of the representatives so appointed may speak on the same proposal.
- 13. After an attending shareholder has spoken, the chair may respond in person or direct relevant personnel to respond.
- 14. Voting at a shareholders meeting shall be calculated based the number of shares.

With respect to resolutions of shareholders meetings, the number of shares held by a shareholder with no voting rights shall not be calculated as part of the total number of issued shares.

When a shareholder is an interested party in relation to an agenda item, and there is the likelihood that such a relationship would prejudice the interests of the Company, that shareholder may not vote on that item, and may not exercise voting rights as proxy for any other shareholder.

The number of shares for which voting rights may not be exercised under the preceding paragraph shall not be calculated as part of the voting rights represented by attending shareholders.

With the exception of a trust enterprise or a shareholder services agent approved by the competent securities authority, when one person is concurrently appointed as proxy by two or more shareholders, the voting rights represented by that proxy may not exceed three percent of the voting rights represented by the total number of issued shares. If that percentage is exceeded, the voting rights in excess of that percentage shall not be included in the calculation.

15. A shareholder shall be entitled to one vote for each share held, except when the shares are restricted shares or are deemed non-voting shares under Article 179, paragraph 2 of the Company Act.

When the Company holds a shareholder meeting, it shall adopt exercise of voting rights by electronic means and may adopt exercise of voting rights by correspondence. When voting rights are exercised by correspondence or electronic means, the method of exercise shall be specified in the shareholders meeting notice. A shareholder exercising voting rights by correspondence or electronic means will be deemed to have attended the meeting in person, but to have waived his/her rights with respect to the extraordinary motions and amendments to original proposals of that meeting; it is therefore advisable that the Company avoid the submission of extraordinary motions and amendments to original proposals.

A shareholder intending to exercise voting rights by correspondence or electronic means under the preceding paragraph shall deliver a written declaration of intent to the Company before two days before the date of the shareholders meeting. When duplicate declarations of intent are delivered, the one received earliest shall prevail, except when a declaration is made to cancel the earlier declaration of intent.

After a shareholder has exercised voting rights by correspondence or electronic means, in the event the shareholder intends to attend the shareholders meeting in person, a written declaration of intent to retract the voting rights already exercised under the preceding paragraph shall be made known to the Company, by the same means by which the voting rights were exercised, before two business days before the date of the shareholders meeting. If the notice of retraction is submitted after that time, the voting rights already exercised by correspondence or electronic means shall prevail. When a shareholder has exercised voting rights both by correspondence or electronic means and by appointing a proxy to attend a shareholders meeting, the voting rights exercised by the proxy in the meeting shall prevail.

Except as otherwise provided in the Company Act and in the Company's articles of incorporation, the passage of a proposal shall require an affirmative vote of a majority of the voting rights represented by the attending shareholders. At the time of a vote, for each proposal, the chair or a person designated by the chair shall first announce the total number of voting rights represented by the attending shareholders, followed by a poll of the shareholders. After the conclusion of the meeting, on the same day it is held, the results for each proposal, based on the numbers of votes for and against and the number of abstentions, shall be entered into the MOPS.

When there is an amendment or an alternative to a proposal, the chair shall present the amended or alternative proposal together with the original proposal and decide the order in which they will be put to a vote. When any one among them is passed, the other proposals will then be deemed rejected, and no further voting shall be required.

Vote monitoring and counting personnel for the voting on a proposal shall be appointed by the chair, provided that all monitoring personnel shall be shareholders of the Company.

Vote counting for shareholders meeting proposals or elections shall be conducted in public at the place of the shareholders meeting. Immediately after vote counting has been completed, the results of the voting, including the statistical tallies of the numbers of votes, shall be announced on-site at the meeting, and a record made of the vote.

- 16. When a meeting is in progress, the chair may announce a break based on time considerations. If a force majeure event occurs, the chair may rule the meeting temporarily suspended and announce a time when, in view of the circumstances, the meeting will be resumed.
  - If the meeting venue is no longer available for continued use and not all of the items (including extraordinary motions) on the meeting agenda have been addressed, the shareholders meeting may adopt a resolution to resume the meeting at another venue.
  - A resolution may be adopted at a shareholders meeting to defer or resume the meeting within five days in accordance with Article 182 of the Company Act.
- 17. The election of directors or supervisors at a shareholders meeting shall be held in accordance with the applicable election and appointment rules adopted by this Corporation, and the voting results shall be announced on-site immediately, including the names of those elected as directors and supervisors and the numbers of votes with which they were elected, and the names of directors and supervisors not elected and number of votes they received.
  - The ballots for the election referred to in the preceding paragraph shall be sealed with the signatures of the monitoring personnel and kept in proper custody for at least one year. If, however, a shareholder files a lawsuit pursuant to Article 189 of the Company Act, the ballots shall be retained until the conclusion of the litigation.
- 18. Matters relating to the resolutions of a shareholders meeting shall be recorded in the meeting minutes. The meeting minutes shall be signed or sealed by the chair of the meeting and a copy distributed to each shareholder within 20 days after the conclusion of the meeting. The meeting minutes may be produced and distributed in electronic form.
  - This Corporation may distribute the meeting minutes of the preceding paragraph by means of a public announcement made through the MOPS.
  - The meeting minutes shall accurately record the year, month, day, and place of the meeting, the chair's full name, the methods by which resolutions were adopted, and a summary of the deliberations and their voting results (including the number of voting rights), and disclose the

- number of voting rights won by each candidate in the event of an election of directors or supervisors. The minutes shall be retained for the duration of the existence of this Corporation.
- 19. The chair may direct the proctors (or security personnel) to help maintain order at the meeting place. When proctors (or security personnel) help maintain order at the meeting place, they shall wear an identification card or armband bearing the word "Proctor."
  - Where the venue is furnished with loudspeaker devices, if a shareholder attempts to speak through any device other than the public address equipment set up by this Corporation, the chair may prevent the shareholder from so doing.
  - When a shareholder violates the rules of procedure and defies the chair's correction, obstructing the proceedings and refusing to heed calls to stop, the chair may direct the proctors or security personnel to escort the shareholder from the meeting.
- 20. The Company shall make expressive announcements of the number of shares solicited by solicitors or shares represented by entrusted proxies on-site at the venue of the shareholder' meeting on the date of the shareholders' meeting.
  - If matters put to a resolution at a shareholders meeting constitute material information under applicable laws or regulations or under Taiwan Stock Exchange Corporation (or GreTai Securities Market) regulations, this Corporation shall upload the content of such resolution to the MOPS within the prescribed time period.
- 21. Matters unspecified in these Rules shall be handled pursuant to the Company Act, Articles of Incorporation of the Company and other relevant laws and regulations.
- 22. These Rules shall take effect after having been submitted to and approved by a shareholders meeting. Subsequent amendments thereto shall be effected in the same manner. 1st Amendment was made on 18th of June, 2013. 2nd Amendment was made on 11th of June, 2015. 3rd Amendment was made on 20th of July, 2021.
